imprint your life
today?

An Embodied Conversation with the Internalized Colonizer

Explore and make visible the ways in which colonialism lives in all of us, as individual and collective. This highly experiential series will use ceremony, systemic family constellations, facilitated conversation, ancestral prayer, and meditation to:

- Disentangle the relationship between belonging, race, ancestry, and power
- Re-member the invisible truths held in your body
- Reclaim belonging for all
- Learn how the shadows of colonialism influence our livelihoods, families, work, health, economy, organizations, and communities
- Recognize and shift patterns of taking what there is no right to take
- Access ancestral strength to support us in facing the future on solid ground
- Unleash creativity
